Bio

Aspiring Front End Developer

I am a 26 year old man from Windhoek, Namibia.
I create value for businesses & individuals through well thought out and designed digital products that helps them reach their goals.

I became a web & digital design by learning from industry influencers such as Flux Academy, Futur, & Design Course – just to name a few. I primarily work with no/little code platforms such as WebFlow & WordPress while I learn coding in order to become a Front End Developer before the end of 2023.

When I am not working or studying I play football or video games and work on personal tech projects (i.e PC building).
